

PRECISION BROKERAGE GROUP ADVERTISING SOLUTIONS PROGRAM

In the pre-internet days, advertising was fairly simplistic and easy to execute without much help from advertising professionals. You could send out mailers, put an ad in the newspaper, or buy spots on radio or television. If you wanted to be found by people looking for your products and services, you could pay for a bold listing in the Yellow Pages to stand out among the long list of your competitors. Of course, you could also pick up the phone and cold call to generate new business appointments, interrupting a household during dinner in the process!

The rapid evolution of digital media has been a game changer in the advertising world, but it has made it complicated for brokers, agents, and advisors to build and execute an effective advertising strategy.

Is your current advertising strategy generating new leads? Do you have an effective website producing new appointments and form fills? How are you showing up on Google when people search for insurance and financial professionals in your area? Do you have an engaging social media presence?

It can all be overwhelming. Precision Brokerage Group's advertising team can help! We have experienced in-house advertising specialists with expertise in areas such as website development, search engine marketing, digital/mobile marketing, social media, video production, media planning, television, and MORE!

As a valued partner, **PRECISION BROKERAGE GROUP WILL PAY UP TO 100%** of advertising expenses for those who qualify for one of the following custom advertising strategies.

We are available to set up a webinar, video conference, or conference call to answer questions and discuss these plans in more detail.

TIER 1 ADVERTISING SOLUTION

Custom Landing Page: We will create a custom landing page that will direct online traffic to capture leads and collect customer information.

Video Production: We will produce one new :15 video ad every 3 months to be utilized on your website, social media, and targeted online video advertising.

Graphic Design: We will create your display ads and all social media ads and graphics.

Copywriting: We will write copy for your video scripts, display ads, social media posts, and social media ads.

Targeted Digital & Mobile Display Advertising:

Targeted ads served to people based on their age, geography, income/net worth, online behaviors, sites visited, and more on computers, tablets, and smart phones. If people are looking for services that you offer, we will target them with your ads.

Targeted Online Video: Show :15 video ads to people based on their age, geography, income/net worth, online behaviors, sites visited, and more on computers, tablets, smart phones, and smart TV's.

Search Engine Marketing: Search engines will match search queries (words typed into the search browser) to generate ads in search results to help position you on the first page of Google, Bing, and Yahoo searches of people looking for your services.

Facebook: We work ahead 30 days using a strategically planned Facebook content calendar. We write the copy for posts and ads, create graphics, post and boost ads, and run ad campaigns in Facebook Ads Manager with an emphasis on lead generation. We would also share relevant content on your behalf, respond to messages and comments, and monitor your page 24/7. If you don't have a Facebook page, we will build one for you.
