

TABLE OF CONTENTS

1. Performance Report Lists

With this report you can run list of products and crediting methods broken down in several different ways. You can use these reports to help you determine which products to offer or use them to help you solidify a sale.

2. 2 Year Allocation Strategy Supplement Reports

Agents have been using this allocation strategy for years, but they have never been able to illustrate it. Now you can! With this report you can demonstrate your mastery of the Fixed Indexed industry by showing a client that not only are they buying safety but maximized growth potential as well.

3. Carrier Comparison Reports

If you are in a competitive situation you can show how superior your product is with this report. You can also do some competitive analysis for pre-sale purposes. This is also a great way to show a client the power of diversity by splitting up their dollars between two or more great products.

4. Product Comparison Reports

You can use this report to compare several different products at a time. You will have the ability to demonstrate diversity or use this in a competitive situation. This is also a great report to show how possible future rate reductions could affect the client's over-all growth.

5. Crediting Method vs Stock Market Reports

If you have clients that are still emotionally tied to the stock market or any risky equities, this report will help get them off the fence. We can demonstrate how the best product crediting methods in the industry compare to the actual market.

6. IUL Allocation Reports

Until the full-blown version of INDEXALYZER IUL is ready, you can still use this report to guide your IUL clients into the best performing crediting methods available in their IUL.

7. Existing Policy Performance Reports

One of the most lucrative un-tapped market in our industry our current FIA owners. You can use this report to demonstrate the power of all the new index options that have been recently made available. This is a powerful way to help these clients get more growth out of their "safe" money.

8. Non-Guaranteed Income Rider Performance Reports

There is a new frontier of Income Rider products that have recently been introduced. The only problem is how to compare them. They are all roughly built the same way, with one difference...PERFORMANCE! This report will help you demonstrate the true way to compare these amazing products.

9. Index Family Reports

If you have a client or you yourself are partial towards a certain index, this report will show you all the products that use each index. You can compare each product based upon performance and know beyond a shadow of a doubt that you are offering the best product from each index family.
